ABOUT US

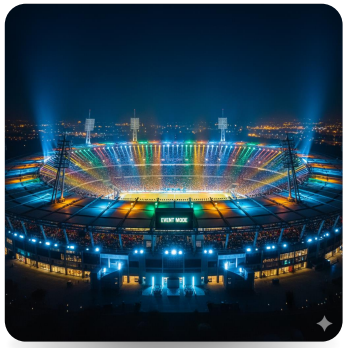

Founded by passionate Electrical Systems Engineers, our company delivers innovative ICT and Power Solutions rooted in local expertise.

With proven experience in Power, ICT, and Telecom sectors, we solve real-world engineering challenges and support Ethiopia's technological growth. We're committed to excellence, service, and creating opportunities for future professionals.

OUR PRODUCTS & SERVICES

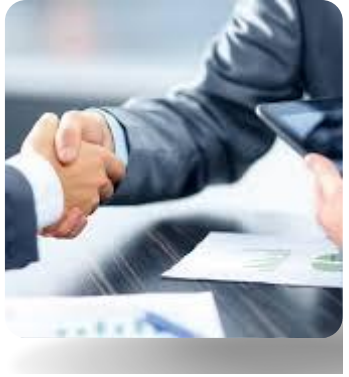

LIGHTING SYSTEMS

Design | Supply | Installation | Smart Integration

VASCOM delivers innovative and efficient lighting solutions for modern infrastructures combining engineering excellence, smart control, and sustainable technology to achieve superior illumination performance.

Street & Compound Lighting

We design and implement solar and LED street lighting systems for cities, & compounds using advanced simulation tools to optimize performance and efficiency:

- **Solar-powered and hybrid systems.**
- **Full installation: poles, cabling, and power systems.**
- **Lighting designs aligned with national and IEC standards.**

Smart Street Lighting Solutions

Next-generation smart city lighting solutions integrating:. Features include

- **Adaptive LED brightness control**
- **Air & noise sensors, CCTV, digital display, EV charging, and 5G connectivity**
- **Centralized monitoring and management**

Flood Lighting Solutions

Advanced lighting with 0–100% lux control for precision, efficiency, and performanc:

- **Stadiums & Arenas: Dynamic, time-based illumination for every event.**
- **Ports & Industries: Durable, high-efficiency lighting for safety and visibility.**
- **Warehouses & Halls: Smart lux management for energy savings and comfort.**

VIDEO SURVEILLANCE SYSTEMS Solution

VASCOM provides advanced CCTV, SCADA-integrated, and AI-driven surveillance solutions delivering real-time monitoring, analytics, and enhanced urban safety for critical facilities and smart cities.

Intelligent Video Surveillance Systems

- **AI-powered facial, vehicle & crowd analytics**
- **Ultra HD 4K/8K imaging with night vision & HDR**
- **Edge & cloud intelligence for real-time insights**
- **Instant smart alerts & automated responses**
- **Secure, GDPR-compliant, cyber-protected**
- **Multi-brand integration & mobile access**
- **Scalable, energy-efficient, 24/7 support**

SCADA & Remote CCTV Control

- Centralized real-time monitoring of CCTV & IoT sensors
- AI-driven alerts, predictive maintenance & analytics
- Secure Remote Operation – Cloud or hybrid access with multi-level authentication
- Smart City Integration – Traffic, energy, lighting, and emergency system coordination
- Scalable, modular, future-ready solution
- Interactive dashboards for instant insights

Intelligent FIRE ALARM & SUPPRESSION SYSTEM

Intelligent Fire Alarm & Suppression Systems deliver rapid, precise detection and eco-friendly, automated protection with real-time monitoring, smart integration, and global standard compliance for ultimate safety of life and assets

Intelligent Fire Alarm System

- Multi-sensor detection for early, precise fire alerts.
- Addressable & smart devices for rapid response and fault isolation.
- Real-time monitoring & remote access for instant notifications.
- Seamless integration with smart building & city systems.
- Compliant with NFPA 72, EN 54, ISO 7240 for reliability and safety.
- User-friendly interface with audible & visual alerts.

Fire Suppression System

- Rapid-response suppression with water mist, FM-200, Novec 1230, CO_2.
- Intelligent activation linked to alarms for synchronized protection
- Zoned & modular design for targeted asset protection
- Eco-friendly clean agents, safe for people & equipment
- Real-time monitoring & diagnostics for maintenance efficiency.
- Certified to NFPA 2001, EN 15004, UL, ISO 14520 standards

Smart City & ENTERPRISE COMMUNICATION SOLUTIONS

- **Centralized intelligent communication and emergency management.**
- **Seamless integration across buildings, campuses, and city networks.**
- **Enhanced operational efficiency, safety, and user experience.**
- **Future-ready for smart city and IoT expansion.**

Intelligent PA System

- Real-time announcements, alerts, and emergency broadcasts.
- Simple PA: Reliable coverage for small areas.
- IP-Based PA: Centralized network control for campuses & multi-building complexes.
- Wireless PA: Flexible, portable, and scalable for dynamic environments.
- Emergency PA: Instant mass notifications integrated with fire & safety systems.

Video Conferencing Systems (VC)

Connect Instantly & Collaborate Seamlessly.

- **Crystal-Clear Collaboration: HD video & audio for a true face-to-face feel.**
- **Effortless to Use: Join and host meetings with a single click.**
- **Save Time & Money: Boost productivity by eliminating travel.**
- **Integrates Easily: Connects to your existing IT/PA systems.**

AccESS CONTROL SYSTEM

Core Technologies:

- **Keypad / PIN-Based: Simple and reliable code access.**
- **Card / Fob-Based: Fast, contactless entry with RFID/smart cards.**
- **Biometric: Fingerprint, retina, or facial recognition.**
- **Mobile & Cloud-Based: Remote monitoring, alerts, and management.**
- **Integration Ready: Works with CCTV, alarms, and building automation.**

Physical Access Control Systems

Restrict entry to buildings, rooms, or secured areas.

- **Smart Cards & RFID: Quick, trackable entry for employees.**
- **Biometrics: Fingerprint, facial, or iris recognition for high security.**
- **Vehicle & Parking Access: Automated gates, RFID, and license plate recognition.**
- **Gate & Turnstile Control: Secure pedestrian and vehicle entry with real-time monitoring**

Digital / IT Access:

- **Multi-Factor Authentication (MFA): Combines password with OTP or biometrics for stronger security.**
- **Role & Attribute-Based Access: Grants flexible, context-aware access based on user roles and attributes (e.g., device, location, time).**

Access Control System

Latest Innovations:

- **AI Analytics: Detects unusual patterns**
- **IoT-Enabled: Real-time device communication**
- **Touchless Access: Hygienic & convenient**
- **Anti-Spoof Facial Recognition: Prevents unauthorized entry**
- **Behavioral Biometrics: Advanced identity verification**
- **Smart Alerts: Instant notifications**
- **Scalable & Modular: Grows with your needs**

LED DiSPLAY & DIGITAL SIGNAGE SYSTEM

- **VASCOM Engineering PLC provides state-of-the-art LED Display and Digital Signage solutions designed to captivate audiences and enhance communication.**
- **Our systems deliver crystal-clear visuals, dynamic content control, and energy-efficient performance—ideal for corporate environments, retail spaces, transportation hubs, stadiums, and public venues.**

LED Display & Digital Signage System

- **Outdoor LED Displays: Weather-resistant for high-traffic areas.**
- **Indoor LED Displays: For malls and transit stations.**
- **Interactive Kiosks: Touchscreens for navigation and information.**
- **Video Walls: Large-scale displays for impactful presentations.**
- **Mobile Digital Signage: Portable for events and temporary use.**

Smart Energy SolutionS

- **Power Your Operations Without Interruption: Reliable UPS, generators, and smart renewable systems keeping your business always online.**
- **Anywhere, Anytime: Optimized energy solutions for data centers, healthcare, industry, commercial, and residential needs.**

Smart Solar Energy Solutions

- Tailored solar design for maximum efficiency
- Premium panels, inverters, and batteries
- Safe and professional installation
- Full system testing and grid integration
- Smart monitoring via IoT & mobile apps
- Preventive maintenance and fast support
- Feasibility studies & eco-impact reporting

Power & Backup Energy Solutions

- **Innovative Design: Engineered for seamless, round-the-clock power reliability.**
- **Premium Supply: High-performance generators, UPS, ATS, and battery systems.**
- **Expert Installation: Safe, efficient, and professionally executed setup.**
- **Smart Monitoring: Real-time control and performance tracking via IoT.**
- **Reliable Support: Preventive maintenance and fast service for maximum uptime.**

Grid-Tie Inverter with Battery & Green Energy Solution

- **Solar-integrated grid-tie inverter system with battery backup.**
- **Smart energy management for hybrid solar and utility power.**
- **High-efficiency inverters, lithium batteries, and solar modules.**
- **IoT-based performance tracking and energy analytics.**
- **Environmentally friendly design minimizing grid dependency**

Clean, Reliable Power for Hospitals, NGOs, Data Centers, Telecoms, Banks & Universitiesy

Data Center, MATV & NETWORKING SOLUTIONS

- **VASCOM Engineering PLC empowers organizations with cutting-edge, secure, and scalable Data Center and ICT solutions built to international standards.**
- **We deliver seamless connectivity, high performance, and future-ready infrastructure — the trusted choice for banks, hospitals, schools, government institutions, and leading enterprises.**

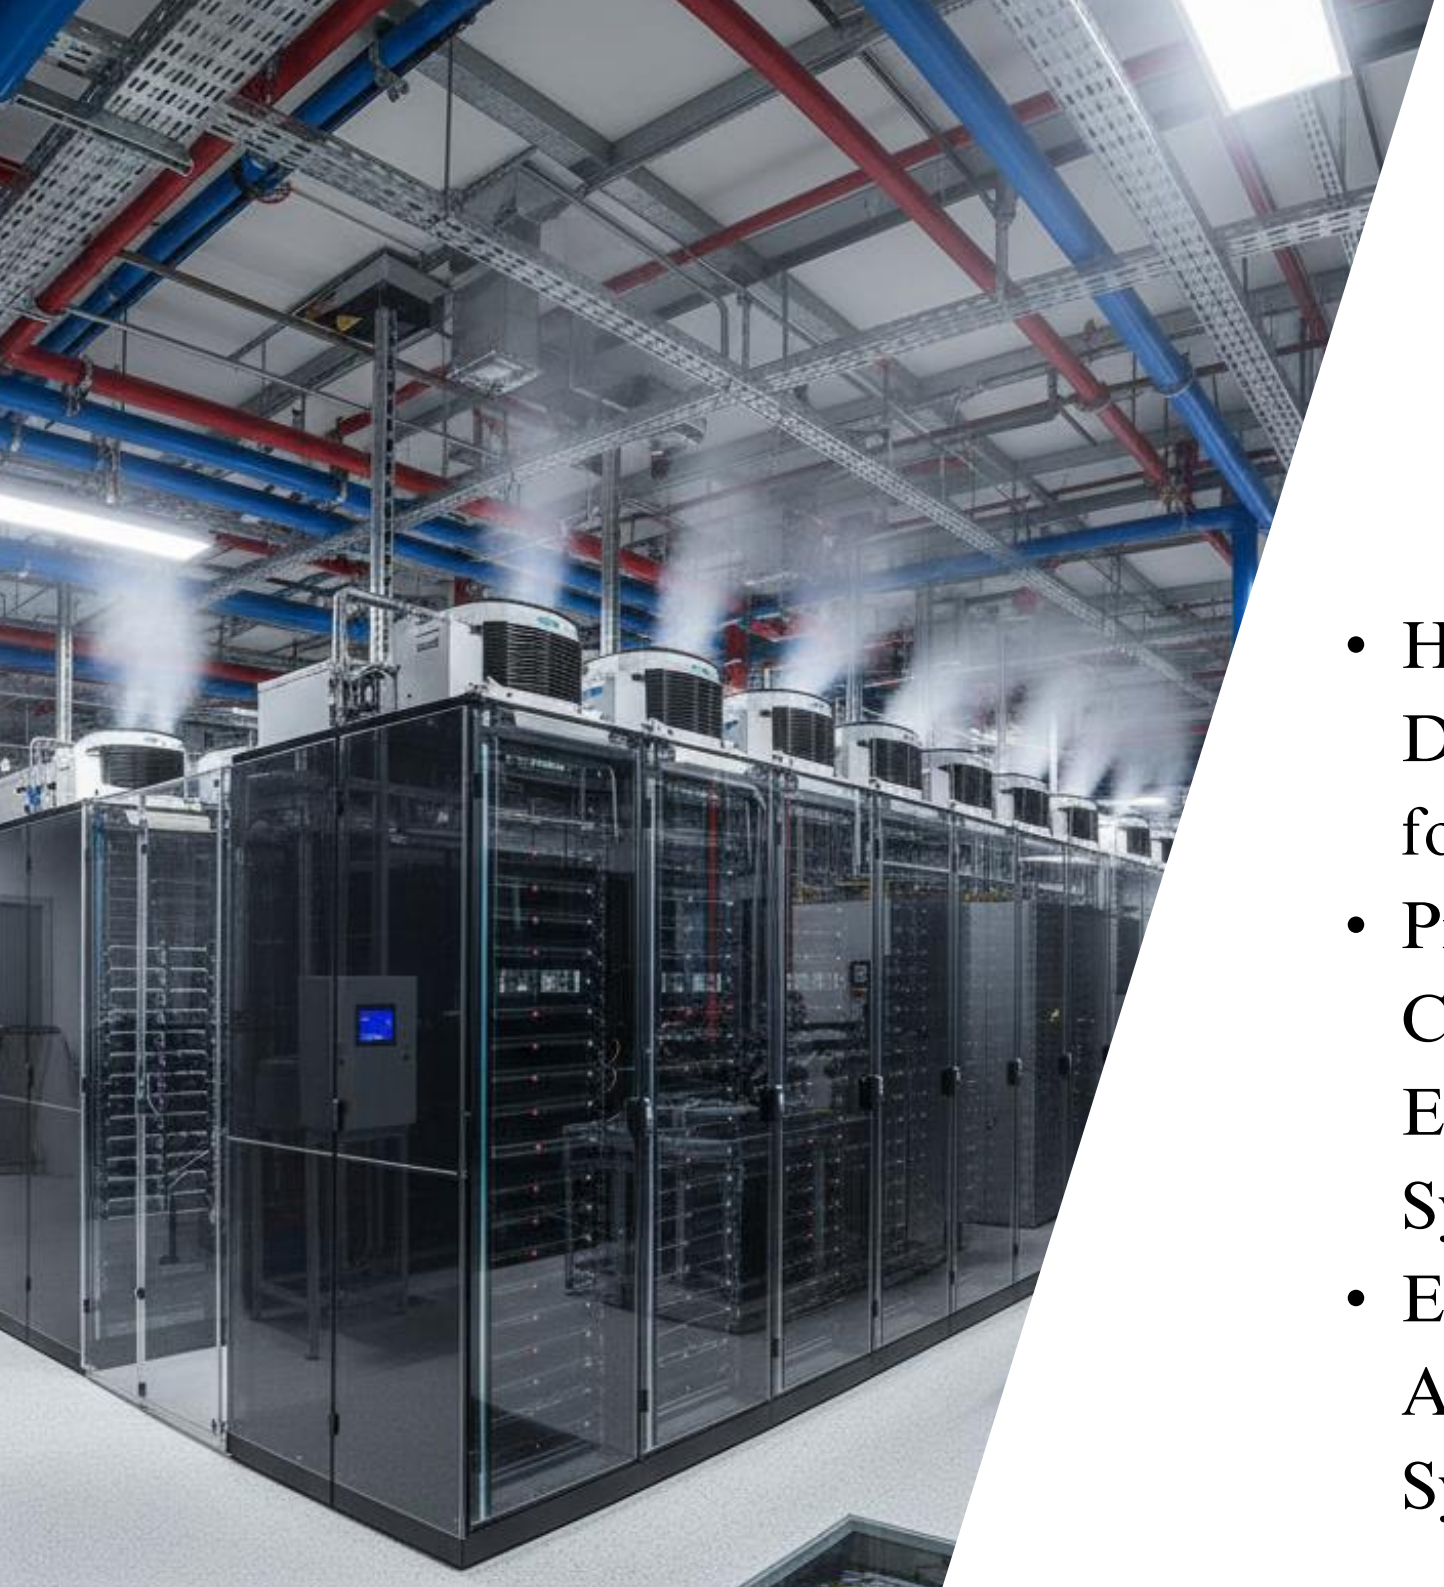

Data Center Design & Implementation

- **Modular Data Center Infrastructure Design and Deployment**
- **Server Racks with Core Network & Storage Equipment**
- **Structured Cabling Systems (CAT5e, CAT6, Fiber Optic) for High-Speed Data and Voice Communication**
- **High-Quality MATV (Master Antenna Television) Signal Distribution**
- **Precision Power Distribution & Management Systems**

Advanced Infrastructure Technologies

- **Virtualized and Hyper-Converged Infrastructure (HCI) Solutions**
- **Enterprise Network Solutions — Design, Supply, and Implementation**
- **SD-WAN and SD-LAN Architecture Design & Deployment**
- **Cloud Integration and Virtualization Services**

Environmental & Cooling Systems

- HVAC-Cooling Systems Design and Deployment for Data Centers
- Precision Air Conditioning (PAC) & Environmental Control Systems
- Energy-Efficient Center Air-Conditioning Systems

Data Management & Analytics

- **Data Mining & BI:** Extract insights from data for smarter decisions.
- **Secure Storage & Backup:** Protect and back up vital business data.
- **Disaster Recovery:** Quickly restore systems to ensure business continuity.

Network Infrastructure & Optimization

- Enterprise Network Design (LAN/WAN/WLAN)
- Intelligent Network Monitoring and Management
- Scalable Connectivity for Corporate and Industrial Environments

Consultancy, INSTALLATION, AFTER-SALES SERVICES & SLA

VASCOM delivers end-to-end engineering solutions built on international standards, covering Consultancy, Installation, Operation & Maintenance, and After-Sales Services. We provide expert design, precise installation, reliable maintenance, and continuous technical support. Our commitment to quality, safety, and innovation ensures efficient performance and long-term client satisfaction.

Installation Services

- Complete system installation and commissioning
- Electrical and mechanical integration works
- Equipment calibration and functional testing
- Cable management and routing design
- Control panel wiring and programming
- Civil and structural foundation works
- Quality assurance and safety supervision during installation

SLA (O&M) Services

- Preventive and corrective maintenance
- System performance monitoring and diagnostics
- Regular inspection and functional testing
- Equipment cleaning and calibration
- Replacement and upgrade of faulty components
- Predictive maintenance using advanced analytics
- Maintenance documentation and reporting

Consultancy Services

- Project feasibility study and site assessment
- System design and engineering consultation
- Energy audit and efficiency analysis
- Risk assessment and safety compliance consulting
- Cost–benefit and ROI analysis
- Technical documentation and project planning
- Standards compliance (IEC, NFPA, ISO, etc.) advisory
